Clean Energy in the Southeast

NC Sustainable Energy Association's 2020 Continuing Legal Education Program

February 4, 2020 | 8:00 a.m. – 6 p.m. | Raleigh Convention Center, Raleigh, NC

Course Goal:

This course will explore energy matters currently at issue in the United States, with a specific focus on clean energy and adjacent topics in the Southeast. This all-day continuing legal education program (CLE) will provide its attendees with legal and regulatory education on the ongoing transition to a cleaner energy mix and the related legal elements.

All attendees will receive 6 general CLE credits.

These are North Carolina CLE credits. Attendees from other states will need to apply to their own state's respective legal education office for CLE credit.

Course Objectives:

- Provide attendees with an update on regulatory and legislative developments impacting clean energy in the Southeast and nationally
- Provide attendees current information that will be useful in the year ahead for clean energy issues

Complimentary Wi-Fi is available to all attendees and all bios and photos of the speakers as well as the Power Point Slides are available through the NCSEA website with a special password we will provide to all attendees.
