

Who We Are

North Carolina Sustainable Energy Association (NCSEA) is the leading 501(c)(3) non-profit organization that drives public policy and market development for clean energy. Our work enables clean energy jobs, economic opportunities, and affordable energy options for North Carolinians.

Here are some of the ways we can work together:

Policy and Advocacy

NCSEA's Policy team works to advance clean energy policies through legislative, executive, and regulatory engagement throughout the year. Our goal is to advance clean energy policies that are beneficial to your businesses, your health, and the state's overall economic security.

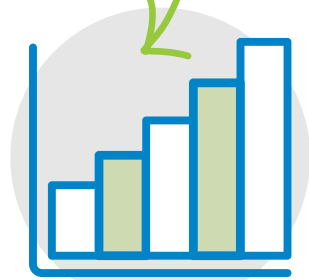

Energy Data Solutions

NCSEA has an established track record of successfully working with municipalities, utilities, government agencies, and businesses to meet their clean energy needs. We can help your energy initiatives reach full potential and achieve maximum impact.

- We work with you to **establish goals**.
- We develop **strategies** that will help you meet your goals.
- We ensure smooth **implementation**.
- We **monitor, track, and report** results straight to you.

Grant Research, Writing, and Management

NCSEA can assist your organization in securing state, federal, private, and nonprofit grant funding for your projects. We are experienced in navigating the grant application process and working in a collaborative environment to secure funding for a variety of projects.

NC SUSTAINABLE
ENERGY ASSOCIATION

Municipal Energy Planning

NCSEA works with local governments to set fair clean energy regulations that are consistent with your community's values.

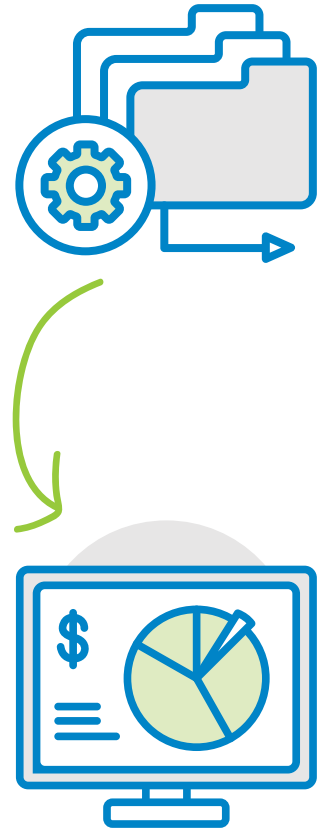

We offer data-driven information and best practices for regulating clean energy systems in your community.
